Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- 1 Following a boundary line, the letter "M" indicates that the boundary is with a MCD. A "+" indicates that the place is also a false MCD; the false MCD name is not shown.
- 2 This symbol shows tribal census tract boundaries and numbers within the subject territory; nontribal census tract boundaries are shown outside of the subject territory but without numbers. The subject territory is defined as the reservation or off-reservation trust land for the purpose of providing data based on an American Indian reservation. If the state or county boundary is also a reservation or off-reservation trust lands cross state or county boundaries, the same symbol is used to indicate the original boundary of the reservation, and, if not, constitutes a single tribal census tract entity.
- 3 Following a boundary line, the letter "B" indicates that the block number is repeated elsewhere in the block.
